## Experienced Java Back-End Developer & Specializing in Spring Ecosystem Agile Methodologies || RESTful APIs || Microservices || AWS Cloud || Apache Kafka

- Coding and Engineering Make the Impossible Possible.
- Experienced Java Back End Developer with years of experience and a strong background in creating secure and scalable back-end software solutions.
- Skilled in **object-oriented design, Java OOP, and Spring Ecosystem**. Proficient in **Oracle Database** management, troubleshooting, and ensuring data integrity.
- Effective collaborator with a proven track record of resolving complex issues and delivering high-quality results.
- Experienced in client interaction and understanding business workflows.
- Committed to following software development best practices and fostering solid relationships with colleagues. Strong analytical skills and proficiency in writing clear technical documentation.
- Capable of handling concurrent tasks, managing configurations, and generating reports.
- Familiar with server management and providing services.
- **Fully authorized to work in U.S. (green card holder).**
- **Multilingual:** English (fluent), Russian (fluent), Turkish (fluent), Uzbek (mother tongue).

### SKILLS:

#### Software Development Life Cycle (SDLC):

- Agile Methodology, Software Development Process, Agile Development, Scrum, Sprint Planning, Agile Project Management.

#### Java and Object-Oriented Programming (OOP):

- Java Core, Java Streams, Solid Principles, Clean Code, Object-Oriented Programming (OOP), Object-Oriented Design, Coding Standards

#### Spring Ecosystem:

- Spring Core, Spring Boot, Maven, Application Development Reliability, Spring MVC, Apache Tomcat, Thymeleaf, Bootstrap, Cascading Style Sheets (CSS), Spring Data, SQL, Oracle JDBC Driver, PostgreSQL, Pgadmin, Hibernate, ORM Framework Coupling, DAO Patterns, Database Management System DBMS

#### Version Control, Collaboration, and Project Management:

- Git, GitHub, Version Control, Jira, Client Interaction, Collaboration.

#### Microservice, API, and Integration:

- Microservice, API Gateway, Apache Kafka, Docker, CI/CD

#### Security and API-related:

- Spring Security, OAuth2, Keycloak, JWT, Spring API, RESTful APIs, WebServices, React, Postman, JSON, Swagger, Open API Responsive Web Design, Application Programming Interfaces (API)

#### Testing and Debugging:

- Spring Testing, JUnit5, Unit Testing, Integration Testing, Debugging, VisualVML, Test-Driven Development, Behavioral-Driven Development, Spring AOP, SLF4J, Mockito

### PROFESSIONAL EXPERIENCE:

#### Java Back End Developer Cydeo, McLean, VA

09.2022 - Present

- Improve system performance through **Java, Spring Boot**, and **PostgreSQL** optimization.
- Enhance the user experience by 10% and increased productivity through developing an intuitive **UI**, implementing project management functionalities, and utilizing **Spring MVC RESTful APIs and Microservices**.
- Reduce errors by implementing solutions to prevent project deletion with open tickets, utilizing **Git, GitHub, Jira, Maven, Aop, and JUnit5**.

#### Java Back End Developer Wraith & Co., Long Island, NY

09.2018-08.2022

- Developed and deployed a scalable Finance System using Java and **Spring Framework**, leveraging the **Spring Boot** ecosystem, resulting in a 10% increase in efficiency.
- Streamlined financial processes, handling multiple clients concurrently with features like **Spring Data** and **Spring MVC**, leading to a 20% reduction in processing time and improved accuracy.
- Implemented robust data security measures with **Spring Security**, and **Keycloak**, ensuring a substantial decrease in security.

### PROFESSIONAL PROJECT:

- **Ticketing Project in the Management Domain**  
GitHub
- **Accounting Project in the Financial Domain**  
GitHub

### EDUCATION AND PROFESSIONAL DEVELOPMENT:

- **Bachelor of Science in Industrial Engineering**, Cyprus International University, Nicosia, Cyprus **01.2013-08.2018**
- **Accounting and Auditing Diploma**, Tashkent Bank College, Tashkent, Uzbekistan **01.2008-12.2012**
